

2016 Kansas Crime Index

Prepared by:

Kansas Incident Based Reporting Unit

1620 SW Tyler

Topeka, Kansas 66612

Summary of Findings For Calendar Year 2016

Total Index Crimes: Total index crimes are 5.6% below the 10-yr average. The total crime index for Kansas is 30.6 offenses per 1,000 people. Total index crimes have been declining despite a very minor 3.3% increase in 2016. Note the heavy dependence that property index crime plays on the total index crime.

Violent Index Crime: Violent index crimes are 5.9% above the 10-yr average. The violent crime index for Kansas is 3.7 offenses per 1,000 people. There was a 4.2% increase in 2016 over 2015. Between 2009 and 2014 these totals have been below the average. MIP agencies saw a significant increase as Non-MIP agencies have seen little movement the past three years. Note the heavy dependence that aggravated assault/battery plays on the violent index crime totals.

Property Index Crimes: Property index crimes are 7.0% below the 10-yr average. Property index crimes have declined considerably since 2007, yet a minor 3.1% increase was seen in 2016. This is still the third lowest total in the past 10 years. This increase can be seen from MIP agencies as Non-MIP agencies have remained stable. Note the heavy dependence that theft/larceny plays on the property index crime totals.

Most In Population (MIP) vs Non-Most in Population (Non-MIP): MIP agencies are those with a population over 100,000. In Kansas there are five MIPs (Olathe, Overland Park, Wichita, Topeka, and Kansas City). MIP agencies make up 36.9% of the population but account for 57.9% of the violent index crimes, 51.0% of the property index crimes, and 51.9% of the total index crimes.

Non-MIP agencies saw a decline in violent and property crimes in 2016 while MIP agencies saw an increase in both.

Murder: Murders are 24.4% above the 10-yr average. While 2016 saw the largest number of murders in the ten year period, 14.3% of those involved multiple murders in single incidents. This is a higher percentage than previous years. In 2015, 9.9% of the time there were multiple victims per incident, and in 2014, multiple murders occurred only 8.9% of the time.

Finding a common circumstance is difficult as 38.1% of the reports indicated "unknown circumstance." Also, 22.4% of the murders listed an unknown suspect. MIP agencies saw a significant increase in total murders as Non-MIP agencies saw a slight decline.

Domestic violence murders have averaged between 25-30% in recent years. In 2016 DV homicides fell to 12.9% of the total.

Rape: Rapes are 2.1% above the 10-yr average. Reported rapes began a steady decline in 2008. In 2014 there was a slight uptick followed by an even larger increase in 2015. While 2016 saw a modest decline, the numbers are still higher than the average.

Robbery: Robberies are 4.8% above the 10-yr average. Historically, robbery offenses have been unpredictable. 2015 saw a 31.3% rise but was still only 1% above the average. Meanwhile, 2016 saw a 3.8% drop from 2015. Robberies have been right at or below the average since 2008.

Summary of Findings For Calendar Year 2016

Aggravated Assault/Battery: Aggravated assaults and batteries are 6.5% above the 10-yr average. Historically aggravated assault/battery offenses have only modest changes from year to year. The years 2015 and 2016 each saw a 6.8% increase. This was primarily due to an increase from the MIP cities. Non-MIP cities have seen a decline in this category.

Burglary: Burglaries are 20.6% below the 10-yr average. Burglary has been on a steady decline since 2011. Criminologists have explained this decline on several fronts. Primarily the decline in resale value of typical stolen merchandise, such as electronics, does not make it profitable.

Larceny/Theft: Larceny/thefts are 5.4% below the 10-yr average. Theft offenses have generally been declining since 2008 with occasional moderate increases. In 2016, there appears to be similar increases however it is still the third lowest total behind 2014 and 2015.

Motor Vehicle Theft: Motor vehicle thefts are 13.6% above the 10-yr average. 2016 was the first year since 2006 where motor vehicle theft has been above the 10-yr average. Criminologists believe motor vehicle theft is replacing burglary as the main crime of opportunity due to a higher monetary return and lower probability of getting caught or injured.

Arson: Arsons are 23.0% below the 10-yr average. The number of arsons reported for each jurisdiction is included in this report. However, arson figures are not calculated into violent or property indices and are meant to stand on their own.

New Statutes: There were no new statutes that had any known effect on the number of reported index crimes.

2016 Index Crimes Totals

2016 Property Index Crimes

2016 Property Index Crimes

Arsons are not factored into indices

Methodology

The Kansas Bureau of Investigation (KBI) compiled the following 2016¹ statistical crime report based on data submitted by local and state law enforcement agencies prior to 5/1/2017.

The data represents the most accurate information available, reflecting crime as reported by law enforcement agencies through the Kansas Incident Based Reporting System (KIBRS).

This system enables crime information from standard offense and arrest reports to be reported by the responsible law enforcement agencies. This report does not represent all criminal incidents committed throughout the State of Kansas, as it is dependent on victims reporting crimes to law enforcement agencies and on those agencies submitting incident reports to the KBI.

This information is designed to support the *Crime in the U.S.* report published annually by the FBI. However, the FBI excludes certain data when fluctuations fall outside of their mathematical equations, resulting in slightly different numbers than reported here.

Data are gathered by one of three ways:

- 1. Manual.** Reports are mailed from the law enforcement agency to the KBI and the data are entered manually by KBI staff into the KIBRS system. These reports must pass a variety of edits in order to be accepted by the system.
- 2. Electronic.** Agencies that have passed a certification process may submit their reports directly into the system through an electronic gateway. These reports must also pass a series of edits in order to be accepted by the system.
- 3. Direct.** Direct reporting, more commonly called summary reporting, involves an agency merely providing the KBI with a count for each crime. This form of reporting is dependent on the agency making proper classification of offenses and does not provide any additional information regarding a case. Direct reporting data were collected on a quarterly basis for 2016.

The following factors should be considered when viewing this data:

1. Beginning with 2005 data, the number of arsons reported for each jurisdiction is included in this report. However, arson figures are not calculated into violent or property indices and are meant to stand on their own.
2. Beginning with 2005 data, this report distinguishes between agencies who have sent no data and those who sent incomplete data. If an agency does not submit at least three months of offense reports or a zero report, they are listed as not having submitted data. If an agency is missing data for a particular number of months it is listed as did not submit complete data.
3. Beginning with 2011 data, this report separates University Police from the county they reside and places them in a grouping of all Campus Police. This was done in order to provide consistency as compared to State Agencies and Tribal Police.
4. The following guidelines are used for purposes of counting offenses: Murders, Rapes, and Aggravated Assaults are counted per victim. Robberies, Burglaries, Thefts, and Arsons are counted per incident. Motor Vehicle Thefts are counted per vehicle stolen.

The final responsibility for data submissions rests with the individual law enforcement agency. Although the KBI makes every effort through its editing procedures, training practices, and correspondence to ensure the validity of the data it receives, the accuracy of the statistics depends primarily on the adherence of each contributor to the established standards of reporting.

Percent of Population Not Covered: 2.27%

NOTES:

- 1) Data is as of 5/1/2017 from reports that have been submitted to the KBI and are counted by NIBRS standards
- 2) Population estimates are received from the FBI on an annual basis. University population is from Kansas Board of Regents FTE enrollment (total pop does not include number for agencies not submitting data)
- 3) Agency did not report sufficient data for accurate portrayal of these crimes. This may be from missing months of data or having significant number of uncorrected errors
- 4) Agency did not submit offense or zero reports for at least 3 months of the year
- 5) Agency reported using Summary data for 2016
- 6) Agency only employs part time officers
- 7) Arson is included in this report but is not included in Crime Index Totals
- 8) Due to the low population numbers and the large purview of Wyandotte County Sheriff, the Index numbers are not calculated for this agency
- 9) The 2016 submissions were significantly lower than previous years.
- 10) Homicides for this agency were counted using Supplemental Homicide Reports
- 11) Due to a change in record management software not all burglaries were recorded by this agency resulting in a 58% decrease from 5 yr avg of 2447
- 12) Printing note: When printing hardcopies of this document, some printers may need to check mark the "Choose paper source by PDF page size" button for proper pagination
